MEMORANDUM FOR THE RECORD

Subj: DOCUMENTATION OF NON-SIGNIFICANT POST RECORD OF DECISION CHANGE
FOR SITE 5 GROUNDWATER (OU-2) NAS-JRB WILLOW GROVE, PENNSYLVANIA

Encl: (1) Site 5 (OU-2) Revised Figure 2-5

1. This memorandum clarifies the land use control (LUC) boundaries for Site 5, Operable Unit (OU) 2 groundwater at NAS-JRB Willow Grove. Through an administrative oversight, an incorrect LUC boundary was shown in Figure 2-5 of the Record of Decision (ROD) for Site 5 Groundwater (OU-2), dated September 2012.
2. The ROD LUC boundary unnecessarily included a portion of an existing Federal Aviation Administration (FAA) radar facility. The boundary of the FAA radar facility is more than 400 feet from the 10 ug/l contour line shown in figure 2-5.
3. Enclosure (1) provides a revised LUC boundary that follows an easily identifiable survey landmark, the driveway to the FAA radar facility. The LUC boundary will be adjacent to but not within the FAA radar facility.
4. This change will not significantly impact the remedy and remains protective of human health and the environment. The enclosed revised Figure 2-5 replaces the existing figure in the ROD, and will be included in the LUC Remedial Design.
